The background of the slide features a low-angle, upward-looking view of a modern building's facade. The facade is composed of a repeating pattern of light-colored, rectangular panels with dark, recessed lines that create a complex, three-dimensional geometric effect. The building extends from the bottom left towards the top right, creating a strong sense of verticality and depth. A solid blue rectangular area is overlaid on the right side of the image, containing the title text. A thin blue border frames the entire composition.

INTRODUCTION

ABOUT THE COMPANY

K Span General Contracting LLC, a proud member of ASCORP Holdings which has been established since 2000 in the United Arab Emirates and specialize in providing engineering solution from design to installation in the following fields:

GENERAL MANAGER'S MESSAGE

The United Arab Emirates has rapidly become an international destination for business development and leisure and a center for international trade and finance. The ongoing development in United Arab Emirates has led to an increase in the demand for all types of civil and building construction, with some of the most extraordinary projects being executed in the country.

Affiliated with the founders of one of the largest construction and industrial groups in the UAE, we maintain our commitment to continue our development in accordance with the country's growth.

With a successful execution of all projects handled it's impossible to recognize the contributions of everyone. I cannot but thank each and every one of our clients, our employees and partner in contributing to the successful achievement of our company.

By the mutual trust that we have gained with our clients throughout each projects, our continuous efforts, passion to provide ultimate innovative and diversified construction solutions in the region. We will stand together to deliver projects of various categories.

Engr. Ismail Ibrahim Ahmed Al Marzooqi

PHILOSOPHY

The success of our mission relies on understanding the multitude of complex issues involved and the active coordination of the varied disciplines required to offer innovative, optimal and economical solutions.

We strongly believe in the team approach concept. From top management to field laborer, all executive, director and high qualified standards at competitive cost in the best time possible.

Through the years, our professional achievements and expansion are the reflection not only of our people's dedication but also of our client's trust in us. They are long-term partners who recognize the value of diligent creative work.

ICAD RESIDENTIAL CITY

QUALITY AND INTEGRITY

QUALITY

K Span General Contracting is built upon time-tested values of excellence and integrity. The reliability of our performance and the enduring quality of our projects are evidenced in our quality work for our customers. We never rest and continually strive to improve our performance through our initiatives

INTEGRITY

Through the years, **K Span General Contracting** has built a reputation for integrity, teamwork and commitment. This means holding the highest standards of ethical business culture. Our reputation for adhering to these standards is one of our most valuable assets.

MANAGEMENT SYSTEM

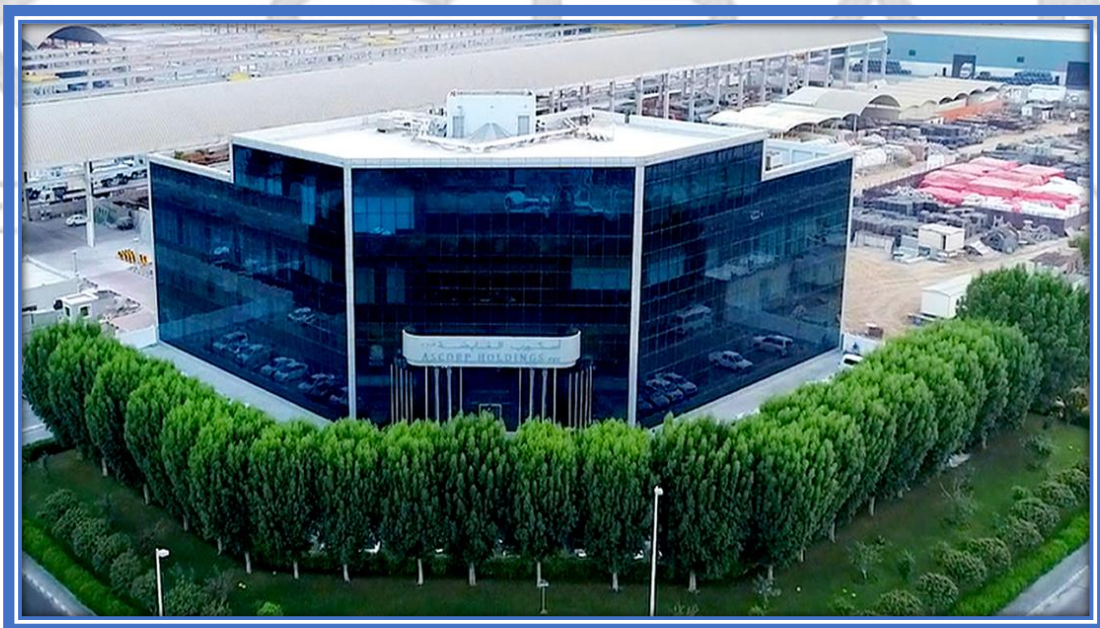

QUALITY POLICY STATEMENT

K Span General Contracting is dedicated to quality and continuous process improvement for both customer and employees. Our responsibility is to ensure that through established standards and measurements, the level of quality at K Span General Contracting matches or exceeds our customer's expectations. We are committed to provide competitive products and Technical Services related to its various fields as a General Contracting Company.

We develop quality awareness through process improvement and development of our employees.

Quality is an integral part of our commitment to products and customer service. Our quality process includes:

- ✚ Researching improvements to add to the quality of our services.
- ✚ Helping to define and improve our products through involvement with our employees and our customers.

ENVIRONMENTAL POLICY STATEMENT

K Span General Contracting is committed to implement and maintain a Safety, Health and Environmental Management System in accordance with the Local, International and Client specific requirements.

In order to achieve successful implementation, we will:

- ✚ Ensure that the company operates in a responsible manner with due regard to ensuring the health and safety of all stakeholders and prevent pollution of the environment.
- ✚ Strive to continually improve and maintain internationally accepted health, safety and environmental practices.
- ✚ Comply with relevant legislation, regulations, laws and by-laws that are applicable to the area or region that we work in.
- ✚ Make this statement available to the public and all interested parties.
- ✚ Communicate to all employees, suppliers and subcontractors the objectives of the Environmental Programme for all project sites, and make them aware of their individual obligations.

HEALTH & SAFETY POLICY STATEMENT

K Span General Contracting firmly believes that the company shall instill and develop a health and safety culture across the organization, whereby a commitment to the prevention of both injury to employees, subcontractors or persons affected by our activities and incidents of damage or loss of property, plant and equipment will improve the overall performance of the business.

In order to achieve this objective, we will:

- ✚ Implement an effective Health and Safety Management system to ensure all operations are carried out in accordance with Local, International or Client specific Health & Safety practice.
- ✚ Through appropriate delegation of authority, ensure responsibility for Health and Safety at all levels within the Organization.
- ✚ Provide effective training and development for all employees to improve their capability to identify and manage the risks normally associated with the nature of our work.
- ✚ Maintain credible and accurate records of all incidents and occurrences, which can be used to produce meaningful statistics against which continuous improvement initiatives can be measured.

CORPORATE RESPONSIBILITIES

We are dedicated to comply with the social aspect of the society and rights of our employees. We put strong emphasis in complying with our code of responsibilities under human and ethical requirements as stated:

CODE OF RESPONSIBILITIES:

1. Complying with the laws and regulations in all locations where business are conducted.
2. Employees shall be compensated for all the hours worked as legally mandated. Employees shall be entitled to a day off and will allow to work according to hours prescribed by working hours in UAE.
3. We will not hire any employee below the prescribed age, or under the minimum age established by law according to the working condition.
4. We recognize and respect the rights of employees to express their complains and give their suggestions for better improvement, we have an open-door policy.
5. We will not purchase materials and/or products manufactured by prison or forced labor, indentured, bonded or otherwise as we practice voluntary employment and we do not restrict free movement of our employee.
6. We will not allow any type of harassment, abuses and corporal, mental or physical punishment by a business partner or an employee.
7. We will not practice any form of improper discrimination in hiring and employment, including on the basis of age, race, color, gender, or religion.
8. We ensure that our workers are provided with safe and healthy work environment in the manner of complying with all the applicable laws and regulations.
9. We will adhere to all applicable laws regarding the protection and preservation of the environment to ensure the safekeeping of our surroundings.
10. Our organization and its work will be guided by appropriate legislation and endorse the UAE labor law for legal requirements to sustain our responsibilities to all our clients and our stakeholders

We intend to conduct all our business in a manner consistent with the highest level of ethical standards, we will seek and utilize partners who will do likewise as this contributes to our corporate reputation and the collective success of our organization and selected business partners.

CURRICULUM VITAE OF THE KEY PERSON

PROFESSIONAL EXPERTISE AND VALUE ADDED SERVICES

PROFESSIONAL EXPERTISE AND VALUE ADDED SERVICES

CAPABILITY AND EXPERIENCE:

K Span General Contracting LLC is recently established contracting company. As for the founder, with over 4 yrs. of experience in UAE we maintain our commitment to continue our development in accordance with the country's progress.

Our profile information describes the number of projects we have completed from government sector. We use design and structural software that enable us to have accurate design output and program for specific estimation and cost control.

Our strength comes from effectively utilizing our "In-house" expertise & resources in various jobs, providing a cost effective, one stop shop solution to our clients. Moreover, we utilize a sophisticated software program which enables us to properly register the assets and schedule.

HIGH RISE BUILDINGS

K Span General Contracting LLC is specialized in building high-rise structures that meet the unique needs of our clients and the communities where they are located. Our team of experts has years of experience in designing and constructing high-rise buildings that are functional, safe, and aesthetically pleasing. We use the latest technology and materials to ensure that our buildings are structurally sound and energy-efficient. Our designs take into consideration the surrounding environment, and we strive to create structures that blend seamlessly with the surrounding architecture.

We understand that building a high-rise structure requires a significant investment, and we are committed to delivering exceptional value to our clients. Our team works closely with our clients to understand their needs and preferences and to create a building that meets their specific requirements. We pride ourselves on delivering projects on time and within budget.

Also, we are committed to ensuring the ongoing maintenance and safety of the buildings we construct. We offer a range of services to help our clients maintain and repair their structures, including regular inspections, maintenance programs, and emergency repairs.

We are the leading provider of high-rise building design, construction, and maintenance services. We are dedicated to delivering exceptional value to our clients and creating structures that meet the unique needs of our communities.

We believe that high-rise buildings are more than just structures. They are symbols of progress and innovation, and they have the power to transform entire communities. That's why we approach every project with a deep sense of purpose and a commitment to excellence.

Our team of architects, engineers, and construction professionals has the expertise and creativity to tackle even the most complex high-rise projects. We are passionate about designing buildings that not only meet our clients' needs but also elevate the surrounding area. We believe that every high-rise building should be a reflection of its community and its values.

We are committed to sustainability and environmental responsibility. We use the latest technology and materials to ensure that our buildings are energy-efficient and environmentally friendly. We believe that sustainable design is not just the right thing to do, but also the smart thing to do. It can save our clients' money in the long run, and it can help reduce our impact on the planet.

We understand that high-rise construction can be challenging and unpredictable. That's why we prioritize safety and risk management in everything we do. We have rigorous safety protocols in place to protect our workers and the public, and we are constantly monitoring and adjusting our processes to minimize risk.

Our commitment to quality and customer satisfaction is unwavering. We are dedicated to delivering projects that meet or exceed our clients' expectations, on time and on budget. We believe that communication is key, and we work closely with our clients to ensure that they are informed and involved throughout every step of the process.

In summary, our company is a trusted partner for high-rise building design, construction, and maintenance. We are committed to excellence, sustainability, and safety, and we believe that every high-rise building has

the power to inspire and transform.

VILLA PROJECTS

K Span General Contracting LLC is also specialized in designing and constructing luxury villas that meet the unique needs of our clients. We have a team of skilled professionals with years of experience in villa design, construction, and project management, ensuring that our clients receive exceptional value for their investment.

Our villas are designed with a focus on comfort, functionality, and aesthetics. We use high-quality materials and the latest technology to create spaces that are not only beautiful but also practical and energy-efficient. Our designs are tailored to our clients' preferences, and we work closely with them to ensure that every detail is just right.

At our company, we understand that villa projects require a high level of attention to detail and expertise. That's why we have a dedicated team of professionals who specialize in every aspect of villa construction, including architecture, engineering, interior design, and project management. Our team has a deep understanding of the local real estate market and

building regulations, ensuring that our clients receive the best possible service and advice.

We are committed to delivering projects on time and within budget. Our project management team works closely with our clients to ensure that every aspect of the project is planned, executed, and monitored effectively. We believe that communication is key, and we keep our clients informed and involved throughout every step of the process.

Our commitment to quality extends beyond the construction phase. We offer a range of post-construction services, including maintenance and repair, to ensure that our clients' villas remain in top condition for years to come. We believe that our relationship with our clients doesn't end when the construction is complete, and we are always available to provide ongoing support and assistance.

In summary, our company is a trusted partner for villa projects, offering exceptional design, construction, and project management services. We are committed to delivering

exceptional value to our clients and creating villas that meet their unique needs and preferences. We pride ourselves on our attention to detail, expertise, and commitment to quality and customer satisfaction.

K-SPAN BUILDING SYSTEM

K Span General Contracting LLC offers K-span building system which permits the erection of property with a galvanized roofing system so permitting the erection of warehouses, depots, aircraft hangers, individual properties with clear spans, so allowing clear, uninterrupted spans without the need of columns within the span.

K-Span is a unique building system and offers a complete system with constant emphasis on high quality, cost reduction. It is a

complete all-in-one operation due to on site manufacturing of arch and straight panels made up of high quality Pre-Painted Galvanized Steel Roofing, combining low prices with fast erection. Steel sheets delivered in coils are transformed by roll, forming it into arched panels that form the monologue structure capable of withstanding heavy live, collateral and wind loads without the use of columns, beams or trusses.

K-Span Building Systems can be used for Industrial, Agricultural, Housing, Institutional, Recreational or Commercial Building Needs. Used earlier by the US Armed Forces around the world and in over 65 countries. It is now common in the Gulf area.

K-SPAN USAGES

RECREATIONAL

Amusement Park shelters, camping facilities, enclosed sport facilities: tennis courts, batting ranges, golfing ranges, ice rinks; bowling alleys, fitness centers, historic landmarks/tourist shelters, swimming pools and vacation homes

RESIDENTIAL

Dormitories, low-cost housing. Waiting Sheds
Comfortable Waiting sheds while waiting for Bus Stops or waiting areas.

K-SPAN USAGES

HUMANITARIAN AID

Clinics, disaster relief: shelters (processing, relief supplies, personnel and food distribution), storage, operational headquarters, reconstructive efforts;

dining and sanitary facilities, maintenance and communication hubs, homeless shelters, low-income housing and base camp facilities for support of peacekeeping and humanitarian operations.

COMMERCIAL / RETAIL

Hangars, boat sales, covered walkways, equestrian, equipment leasing companies, livestock and breeding, maintenance facilities, market places/bazaars, museums, residential common areas, self-storage facilities, stores/storefronts, gas stations, telecommunication infrastructure coverage, vehicle dealerships and warehouses.

K-SPAN BUILDING SYSTEM ADVANTAGES

COST-EFFECTIVE

There has report showed the costs 40-60% less than labor-intensive conventional construction or prefabricated buildings. The state-of-the art technology lowers cost by reducing the crew and by eliminating your dependency on architects or engineers. With the seaming machine, there is no need for nuts, bolts or screws. This feasible solution allows you to manufacture a building in as little as a single day, saving valuable time and money.

FLEXIBLE DESIGNS

The K-Span arched panels allows you to build structures to your unique specifications. Clear span building widths can be small or large. Building lengths and the ability to later expand a building are unlimited, provides you with capability to create self-supporting ground to-ground panels with gable, double and single radius designs. Various colors of steel can also be used to enhance the appearance of your buildings.

K-SPAN BUILDING SYSTEM ADVANTAGES

DURABLE & LOW MAINTENANCE BUILDINGS

The constructs durable, virtually maintenance-free buildings, because they are watertight, rust-free and fireproof. Buildings with K-Span arched panels have been tested for severe weather conditions and can withstand typhoons, earthquakes, harsh winds and heavy snow.

WATER PROOF

Arches are seamed together in a totally waterproof joint by an electric seaming machine. It does not require huge quantity of screws which may allow the rain water to enter inside the building.

VERSATILE

K-Span buildings are aesthetically more appealing than the conventional steel buildings. K-Span arches can also be dismantled and erected again in any other place without any changes in its shape or specifications where as it is impossible in the conventional steel systems.

CIVIL WORKS

Since the founder has a professional capability for more than 4 years of experience in the business of maintenance and services, we adopted a competitive bidding by executing new project and maintaining civil works for government buildings and public works department.

With respect to the process of civil works and maintenance, the work includes road maintenance in general, as well as the private contracting of maintenance activities. In addition, issues related to the area of construction and the environment are also included, such as construction and maintenance environmental impacts and mitigation, and construction site safety.

As part of maintenance and construction process of our Civil Division, we break down some of the major activities involved:

- ✚ Car Shed
- ✚ Concrete Repairs
- ✚ Sand Blasting
- ✚ Aluminum and Steel Works
- ✚ Construction

ELECTROMECHANICAL SERVICES

With **K Span General Contracting** qualified, experienced and licensed staff that meets the standard conditions, we provide supply, installation and perform maintenance work for the following:

- ✚ HVAC systems, water chillers, package chillers, air cooled package and all other A/C system with all parts and accessories
- ✚ Water supply system, filtration system
- ✚ Elevators and escalators and motorized doors
- ✚ UPS system
- ✚ Emergency exit lighting
- ✚ Automatic sliding and swing doors, gates, drop arm barriers, access doors
- ✚ Minor ancillary service

ELECTRICAL & INSTRUMENTATION

- ✚ We have experience in providing an extensive range of electrical services to a vast selection of businesses like Commercial & residential buildings, villas, etc. completed to your standards with minimum disruption.
- ✚ We undertake the following types of work effectively and efficiently

SUB-STATION

- ✚ Power Transmission and Distribution Networks
- ✚ Package substation Installation
- ✚ HV (11kv) cable Termination & Jointing
- ✚ Earthing Networks
- ✚ Testing and commissioning for Transformer and Equipment.
- ✚ Relay setting calculation

LV ELECTRICAL

- ✦ LV Switchgear and Capacitor Bank Installation
- ✦ Motor control center, control panel Installation
- ✦ Earthing & Lightning Protection System
- ✦ Generator Installation
- ✦ Testing and commissioning for Generator
- ✦ Cable Laying and Termination
- ✦ Wiring accessories Installation
- ✦ Lighting control system

HVAC SERVICES

- ✦ We carry out the design, supply, installation, testing and commissioning of centralized & industrial air conditioning and ventilation systems as per client, consultant, authorities' requirements.
- ✦ We are specialized in air conditioning and ventilation for any building i.e. Offices, Residential, Warehouses, Showrooms, Malls, Hotels, supermarkets, etc.

- ✦ Team includes a wide range of experience in project execution of all kind of HVAC system i.e. Chillers, Package and DX systems, VRF System, split units, car park ventilation, toilet

exhaust system, building fresh air ventilation, and smoke management system as per client and authorities requirements.

- ✦ Our team of engineers and technicians working hard to complete assigned projects in stipulated time with exceptional technical and commercial solutions and site work execution that ensures our client gets quality work.

Chilled Water Systems

- ✦ Installation of Air cooled and water-cooled chillers.
- ✦ Installation of chilled water pumps.
- ✦ Chiller plant installation works
- ✦ ETS Room installation works.
- ✦ Heat exchanger installation.
- ✦ Chilled water pipes, insulation, and valves.
- ✦ Chilled water piping pressure test.
- ✦ Installation of thermostat and wiring.
- ✦ Chilled water System Flushing and cleaning.
- ✦ Chilled water balancing.

PLUMBING SERVICES

- ✚ We carry out supply, installation, testing and commissioning of plumbing and drainage work for different applications i.e. office buildings, residential, warehouses, hotels, restaurants, and educational institutions.
- ✚ Our team has experienced engineers, supervisors, and plumbers who can handle any project large or small.
- ✚ We are committed to provide excellent workman and high-quality services to every project we undertake.

Potable Water Supply System

- ✚ Installation of Hot and Cold water supply piping.
- ✚ Installation of Water Tanks.
- ✚ Installation of pumps.
- ✚ Installation of electric water heaters.
- ✚ Installation of Solar water heaters.
- ✚ Installation of water filtration systems.
- ✚ Installation of valves, water meters, Estidama meters.
- ✚ Design, Engineering, and submit water supply system for authorities approval.

Drainage System

- ✚ Installation of aboveground and underground drainage piping.
- ✚ Installation of gully traps, inspection chambers, catch basin, and manholes.
- ✚ Installation of Submersible pumps.
- ✚ Installation of Rain water outlets and storm drainage system.
- ✚ Installation of sanitary fixtures.
- ✚ Design, Engineering, and submit Drainage system for authorities' approval.

FIRE PROTECTION SERVICES

SMART FM Electromechanic LLC, a sister company is a civil defense approved Fire Fighting and fire alarm contracting company who are authorized by UAE civil defense to execute firefighting and fire alarm works with license.

Our Services Include

- ✚ Supply, and Installation of firefighting pipelines.
- ✚ Supply, and Installation of Fire hose Cabinets.
- ✚ Supply, and Installation of hose reels and landing valves.
- ✚ Supply, and installation of fire extinguishers.
- ✚ Supply, and Installation of Sprinkler system.
- ✚ Supply, and Installation of Fire pump room.
- ✚ Supply, and installation of Clean Agent System.
- ✚ Supply, and Installation of Fire alarm control panel
- ✚ Supply, and Installation of Fire alarm detectors
- ✚ Supply, and Installation of Fire alarm sounder, manual call point.
- ✚ Supply, and Installation of Fibre optic converter for fire alarm networking
- ✚ Interfacing for FM200, HVAC, ELV systems

LOW CURRENT SERVICES

The rapid boom in the construction sector in the UAE and the increasing interest in various security products, has aided our low current system division in making rapid strides in becoming a one-stop-shop for all Low Voltage systems solutions.

We undertake the following types of work effectively and efficiently

Our Services Includes:

- + CCTV System
- + Central Battery Emergency System
- + BMS System
- + Structured Cabling Works
- + SMATV system
- + Master clock system
- + Public Address system
- + Audio Video System
- + Intruder Alarm System
- + Intercom System
- + Gate Barrier System

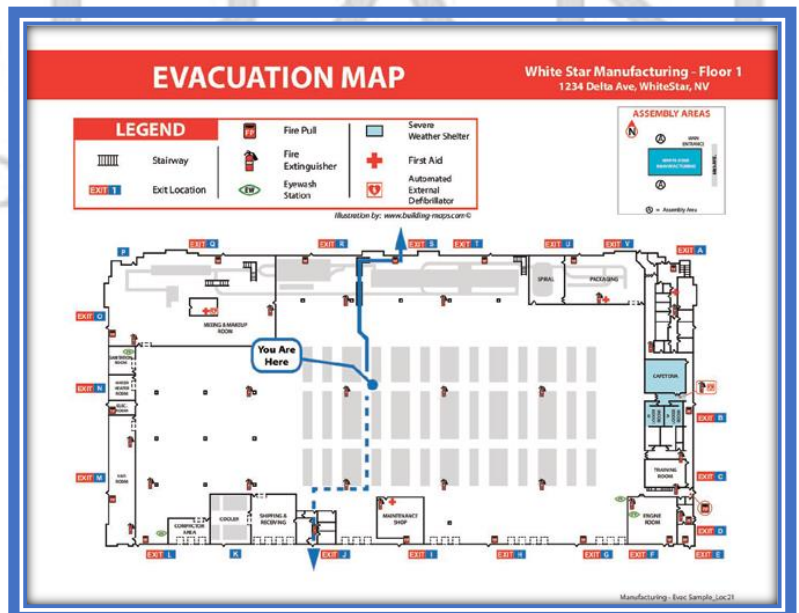

FIRE PROTECTION SYSTEM

+ Design:

We provide various services includes: design, installation and maintenance in all aspects of fire protection. We provide a complete end-to-end service guaranteed to ensure compliance of ADO requirements and international standards. Our highly skilled and certified engineers & technicians works closely with customers to understand their requirements, identify potential risks and offer options to deliver the most appropriate fire safety design for all sectors as per ADCD standards & regulations.

We works in accordance with established systems for quality management, combines theoretical knowledge and practical application

using advanced fire prevention, suppression and protection products adhering to the highest standards. Smart F M Electromechanical LLC. provides a solution to protect your premises no matter the size or complexity of the project. We have extensive experience from preventive and active fire protection work, along with that, our experienced staff will determine the right solution, taking into account protection, cost, appropriate risk and compliance with authority requirements.

✚ Installation:

We are one of the leading fire safety solutions providers in the UAE. As part of our services, we offer installation of fire protection systems such as firefighting, fire alarms, emergency & exit light system, sprinkler systems and hydrant systems.

Our field engineers & technicians are licensed and well-trained to provide quick, efficient installation of fire protection systems. We take a consultative approach for each project in order to understand our clients' requirements and with our "out of the box" thinking also provides innovative cost-effective solutions for the client's fire protection needs under the rules and regulations of the authority.

Whether they need installation of fire protection systems, our professional & experienced team of engineers & technicians are knowledgeable about planning and installing your fire safety system. The expert team at Smart F M Electromechanical LLC. will ensure the proper installation and operation of your fire protection systems, protecting your assets and minimizing maintenance costs.

MARINE CONSTRUCTION

Our mission is to remain committed, reliable and efficient in taking up and handing over of various marine-civil constructions and related works promptly and precisely.

We strive to perform projects in close co-operation with our customers, which may be project employers or contractors and always at a competitive price. Our aim as a construction partner is to provide tailor made solutions and implement them in achieving the goal. Quality assurance, achieving safe working conditions and safeguarding

- ✚ Construction of intake seawater pipeline with HDD & PARA track Steering methodology
- ✚ Diving Service such as welding, cutting underwater, cleaning of desalination & power plant intake screen, Quay wall block installation & many other service
- ✚ Construction of Sheet pile and Secant pile jetty
- ✚ Construction of Floating Marina with concrete floats
- ✚ Construction of breakwater & Rock Revetment
- ✚ Construction of Breasting & Mooring Dolphin
- ✚ Construction of RoRo Ramp & Boat Slipway
- ✚ Construction of Temporary Floating Bridge Between Islands

INTERIOR DESIGNING & FINISHING

+ Design Service

Presents genuine artistry and modernity. From heritage designs to contemporary styles.

+ Vinyl & Carpet Flooring

We are specialist in vinyl flooring solutions for professionals. Whether it be Healthcare, Education, Sports or Retail we have a commercial vinyl for everyone.

+ Painting & Wallpaper

We strive to make things hassle-free and convenient; especially when it comes to our Interior House Painting.

+ Sculpture Art

We strive to make things hassle-free and convenient; especially when it comes to our Interior House Painting.

+ Gypsum Ceiling

Gypsum Board is one of the widely used construction materials mainly in interior designing works. Due to its properties and various product of gypsum, its uses have become vast in construction industries. Gypsum Board is used as surface material and its applications are prominent in wall and ceiling construction. The use of Gypsum can also be done at field in the form of plaster.

+ Aluminium Ceiling

We offer a wide range of metal ceiling types including metal linear ceilings and suspended ceilings and more. We also offer a fully bespoke service where we create metal ceilings to meet your exact project requirements. We offer many suspended ceilings design options including suspended metal ceiling systems, clip-in tiles, lay-in tiles and hook-on tiles.

+ Wooden Works

We have performed an immense number of projects in all the Emirates and overseas. Having involved in various projects, the has satisfied all our valuable customers

+ Ceramic & Marble (Wall & Floor)

We cover all aspects of tiling, from small residential jobs to larger commercial ones with our broad line of high-quality tiling service.
